

## **Appeal to the World**

Senseless Cycle of Bloodshed, Destruction between Israel, Palestinians in Gaza Must Stop Now.

The Israeli–Palestinian conflict is an ongoing violent struggle between Israelis and Palestinians. Various attempts have been made to resolve the conflict as part of the Israeli–Palestinian peace process.

We appeal both the Government Officials and World to come forward and Call for Immediate Ceasefire, Re-launching Peace Talks, if not then it may reach to wider regions.

We deplored the increasingly large numbers of Palestinian civilian casualties in Gaza from Israeli air strikes, as well as Israeli fatalities from rockets launched from Gaza. We also expressed deep concern over violent clashes between Israeli security forces and Palestinians across the occupied West Bank, including East Jerusalem, where Palestinian families are under threat of eviction.

“The fighting has the potential to unleash an uncontrollable security and humanitarian crisis” and to foster extremism — not only in the Occupied Palestinian Territory and Israel, but in the region as a whole.

“This senseless cycle of bloodshed, terror and destruction must stop immediately,” We called on all parties to respect international humanitarian law and international human rights law, stressing that the status quo at the holy sites must be respected.
